

FCCLA Planning Process Summary Page Template

(This template may be modified, but all headings must be used in the correct order. The FCCLA logo, STAR Events logo, and Planning Process graphics are encouraged but not required.)

IDENTIFY CONCERNS

As students that have lived in the same communities for their whole lives, we are concerned about the lack of knowledge when it comes to community service. From our past experiences we have learned that very few people in our community know about community service and the vast amount of projects possible relating to community service.

SET A GOAL

Our goal was to create a video to help increase awareness of the benefits of volunteering for teens and the community. We wanted to make the video five minutes long and comply with the specifications of the event. We wanted to complete this by January 30, 2020

FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

Who: Narrators (Drew Newman and Maria Kemper)
 What: Make a digital video on community service.
 Where: Ste. Genevieve High School
 When: November 2019-January 2020
 How: We worked together to research the benefits of volunteering in the community to help those in need locally.
 Cost: None
 Resources: Script, Google forms, Google Drive, WeVideo, students to answer form, www.wcsu.edu, blog.prepscholar.com, health.harvard.edu, www.helpguide.org, and narrator.

ACT

First, we started our research over community service and its benefits. Next, we began formatting our script and planning process. Then we began work on our storyboard. We used this information to organize and create our video using FCCLA projects and activities as examples. We begin adding information to the script as well as pictures to the video. After we finished the script we recorded our audio and began the video editing process. Once we finished the video we completed the project summary and project identification pages.

FOLLOW UP

After we finished our research and script writing we had both learned a large amount of new things. We had both learned about the true impacts of community service. Impacts that can occur in the body and the mind. As well as impacts that can occur in society through community service. Community service is the type of thing that everyone knows about, but no one truly knows what it means until they learn about it. Our research helped us learn that very few people really know what community service can give you, especially when it comes to the benefits. Our main take away from this project is that you can find the best parts of yourself one action at a time.
