IDENTIFY CONCERNS

Create a video that is no shorter than 3 minutes but no longer than 5 minutes that shows the different aspects of social media, while focusing on the main parts of digital citizenship. We would also like to focus on how social media can both positively and negatively affect all aspects of an individual's life.

SET A GOAL

Specific: We want to create a video which shows on using social media responsibly and safely, and the effects it could have on your life if you don't .

Measurable: We want to create a video using a video editing software called Wevideo which will allow us to show people how citizens should properly use social media. We would like to reach 1,200 people with this video.

Attainable: We want to create a realistic video about both the damage social media can do to one's life, but we also want to talk about the positivity it can spread as well.

Realistic: We will use our knowledge of video creating and editing to create a video about different aspects of digital citizenship, and the positive and negative effects of social media.

Time Bound: We want to create a video spreading the effects of social media by January 31st, 2018.

FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

Who: Alexis Bova and Jady LeClere

What: Create a Digital Stories for Change video about aspects of social media and digital citizenship.

When: October 2018 January,

Where: Ste. Genevieve High School

How: By filming interviews and skits with the help of Ste. Gen. tech and various people of our community, and using WeVideo to edit.

Cost: There is no cost.

Resources: Dr. Eatherton, Wevideo, and the internet.

ACT

December 11th and 12th- Austin Kuehn and Evan Walker were interviewed about digital citizenship.

December 20th- Katie Chapman, Ryan Weik, and Abi Schaechterle were interviewed about digital citizenship.

January 10th- Dr. John Boyd Jr. was interviewed about digital citizenship.

January 15th- Mr. Chris Hoehne was interviewed about digital citizenship and We started editing our WeVideo.

January 31st- Finished creating video

FOLLOW UP

From completing our project, we were able to realize that digital citizenship plays many different major roles in today's society and in the future and that we should spend more time educating students about the importance of digital citizenship.
